

KITTEN & CAT APPLICATION

The Shevangi Bengal Cattery

Your Name: _____

Email Address: _____

Phone: _____

So you have decided to purchase a Bengal Cat. Bengals are highly energetic and outgoing. They are slightly different than other cats, but they are still cats. Bengals are mixed between a Tabby Cat & the small forest dwelling Asian Leopard Cat and are at least five generations removed from their wild ancestors. And no, they are not dangerous. Bengals are extremely friendly and social. They sometimes like to come into the shower or bathtub with you and they swim like their wild ancestors. They bring you the pleasure of having something wild looking in the house with a gentle and sweet purrsonality. Bengals will surely steal your heart away. Our cats are high quality with Champion bloodlines. We love them all and they find their way into our hearts - day by day a little bit more when we have our litters. As we become very attached to our cats, it is difficult for us to sell them and we would like to make sure they end up in loving homes, with people that love them just as much as we do. We therefore have some questions for you and ask you to be kind enough to fill out this kitten application and return it to us.
